CONTENT

The ToT covers the main phases of the learning management cycle: analysis, design, development, implementation and evaluation, as well as the capacity of being an effective and updated trainer within an organization.

A particular emphasis will be on design, participatory delivery and:
- the characteristics of adult learning and learning styles;
- knowledge sharing and facilitation techniques;
- learning technologies;
- action-oriented learner-centred training;
- creativity and visual facilitation;
- learning assessment.

Case studies, examples and references stored in the ITCILO Learning and Technology Blog (https://blog.itcilo.org/) that focuses on learning innovation, will be embedded within the Programme.

The course will include online moderated sessions, a face-to-face training and online mentoring.

AUDIENCE

The Programme will be open to candidates who meet the following selection criteria:

- **Working commitments:**
  - Specialists involved in designing and implementing learning activities;
  - Officials who have to supervise trainers and participate in training evaluation;
  - Learning managers who take part in training programme cycles;
  - Managers who are responsible for training and capacity development.

- Opportunity to implement: candidates should already have, when applying for the Programme, a planned training and learning event in which they will participate as trainers.

- Language and IT skills: candidates will work in English and will have to be ready to work at a distance and make the most of innovative IT tools and technique.

- To apply please fill in the registration form here.

METHODOLOGY

Overall the approach aims for experiential learning, co-creation, building on real-life experiences and grounded case material. It offers exposure to different approaches of training and seeks to inspire participants to step out of their comfort zones and experiment, all in a safe and reflexive environment.

A special focus will be made on feminist pedagogies and gender responsive training methods:

- Understand how the methodology can be used in relation to the gender approaches (women, gender, mainstreaming and masculinities)
- Build a programme that is inclusive and;
- Considering gender relations that may affect the learner.

Additional focus will be on visual facilitation, giving participants the opportunity to:

- Experience visual methodologies
- Learn how to make the most of software for visualizing information
- Count with a Visual Toolkit to be used for training design and implementation
